

Implement `PreorderIterator` and `PostorderIterator` classes within the `BinaryTree` class. (See `InorderIterator` class as a reference.)

Implement `getPreorderIterator` and `getPostorderIterator` methods in the `BinaryTree` class. (See `getInorderIterator` method as a reference.)

Uncomment `getPreorderIterator` and `getPostorderIterator` methods in `TreeIteratorInterface`.

Display nodes in preorder and postorder in `TreeDemo` class.

See slides 30-32 in `Ch24..pdf`
